Haylee I will miss you forever. I'll see you in heaven soon. Our entire family misses you.

## *Mommy*

Mommy will always remember how sweet and loving you were. You will always be my baby. I will always remember the way that you loved to sleep on me, with my legs crossed indian style you would sleep so peacefully on mommy like this, I called it your nest. You brought so much happiness to me in the short time that you were here, but even though we can never share any of these moments again, you will always be with me and I know that I will see you again. Your sister misses you very much as well, you were lexy's baby too. You were everyone's baby everyone wanted their turn holding you forever. All we have now is pictures and memories to hold on to. I know your grandma is taking good care of you up there in heaven, but it's so hard to even think about. I believe that you have helped us through some of this, just thinking of you and knowing what had to be done to the evil person who done this, got us this far. I love you and miss you so much Haylee, you are always in mommy's thoughts.

## **CARLA**

Haylee,

I remember when we took you shopping in Edinburg and you wanted a "dew" as you would say for Mountain Dew and I gave you sprite, after taking one sip you looked at your sippie cup and pitched it.. I laughed so hard... Then Andy gave you your very own bag of chips like the other girls and you were a big girl... You took your face and put in the bag, then poured the entire bag on the floor and laughed... You always were so funny... I know you are still laughing in heaven... I love you Haylee and I try so hard to stay strong... words... I know you want us to be happy and laugh like you always had us do... The 20 short months you were here left a lifetime stamp on my heart Haylee... I miss you so very much... You are on my mind so much lately....

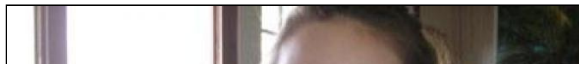

## ***Sarah (cousin)***

Haylee, i miss you so much that noone could ever understand. You brought me happiness every time that I saw you. I love you alot. You were always smiling and doing something to make someone laugh or smile. I think about you everyday and how lucky that our family was to have you. But now even though it hurts that we dont have you, then still now that you are in heaven being the happy little angel that we all knew! You are remembered and loved forever. I miss you alot!

XOXOXOXOXO Sarah

P.S. Happy Birthday!!!

Haylee baby,

I will always remember the way you used to say Birdie, well the best you could. And you used to kiss the picture of me as a baby. And all the times that we took you to church and for some reason whenever church started that is when you wanted to start crying. And when You peed on my dads bed! Haylee, I will never forget you and I know that you were brought to me for a reason. You made me who I am today... you taught me more then I will ever learn in school.... Thank you so much for letting me be in your life. I know you don't want to see me upset buy baby without you there is a piece of my missing... and I promise you I will try to stay strong for everyone else. because I know thats what you want. Haylee You are always in my heart honey and I will always remember all the precious memories we had. You brought so much happiness and kindness into the family...I love you Haylee Elyssa You will always be my angel!

### **CARLA**

I will always remember your kisses, the way you wanted to be held... Haylee, you came into this world with so much love and kindness... I want you to know you left such wonderful loving memories and I will do my best to always think about the happiness and love you showed all of us... I know you were sent to us for a reason and to show us love and happiness and peace... Haylee, I try so hard to remember the peace and kindness through all of this and I know you would not want us to carry so much anger.. I try baby.... Just know that I thank you Haylee for allowing me to know you and to most all Love you....

I will ALWAYS remember your loving, kind spirit... Now you are the angel that you were here on earth....

Two roses are positioned in the upper right quadrant of the image. The rose on the left is smaller and more tightly curled, while the one on the right is larger and more open, showing its petals. They are set against a mottled, olive-green background that has a subtle, aged texture.
